

» *handcrafted* since 1978

Peacock Pavers capture the character of Old World stone in pavers that are uniquely handcrafted in architectural-grade concrete. The colors and textures replicate the wonderful richness of ancient Italian travertine. The added beauty is that Peacock Pavers are affordable, eco-friendly and at home indoors and out.

PEACOCKPAVERS™

patent pending - TRADE SECRET

Welcome to the wonderful world of Peacock Pavers, the handcrafted, architectural-grade concrete pavers that replicate the beauty of ancient crosscut Italian travertine.

Peacock Pavers are perfect for all kinds of interior and exterior applications. Use them for new construction, remodeling projects and landscaping. They lend distinction to floors, terraces, fireplace facings, swimming pools, pool decking, water features, driveways and more.

Peacock Pavers are versatile, affordable and easy to install. And like their travertine and limestone counterparts, each paver is unique in color gradation and texture, as if it came from an ancient quarry.

And yet our pavers are more eco-friendly than quarried stone. They're made of a recyclable material, concrete, and require far less fuel to produce.

Discover all the ways Peacock Pavers can bring your design ideas to life. And be kinder to the life of our planet.

- Excellent freeze/thaw characteristics
- As easy to install and seal as stone
- Can be laid in random, herringbone, running bond or custom-designed geometric patterns
- Available in six stock colors: buff, champagne rice white, dolphin grey, slate and oyster.
- Custom colors available
- Trim pieces available

pavers

Peacock Pavers are versatile, affordable and easy to install. And like their travertine and limestone counterparts, each paver is unique in color, gradation and texture, as if it came from an ancient quarry.

Floors, patios, driveways, water features and more.

- » **Pavers for new construction** come in 1" and 1 3/4" thicknesses. Pavers are available in 10 different sizes. All are 1/2" short of true measure to allow for grout. Random pattern sheet available on web site.

Weight

- 1" thick pavers weigh 13 lbs per square foot
- 1 3/4" thick pavers weigh 20 lbs per square foot

- » **Remodeling pavers** are 5/8" thick. They are available in 8 sizes. They are 1/2" short of true measure to allow for grout. Random pattern sheet available on web site.

Weight

- 6 lbs per square foot

- » **Driveway pavers** are 3" thick with our special interlocking design. Random, herringbone and running bond pattern sheets available on web site.

To prevent harm to the finish, Peacock Pavers should never be acid-washed except with products recommended by Peacock Pavers.

The pavers should never be pressure-washed. For information on cleaning and sealing for your particular application, please call us at 251.368.2072.

Please note that texture and color variations are natural characteristics of our handcrafted pavers. Single samples are REPRESENTATIVE of the color and texture but do not assure IDENTICAL hue or texture in all pavers.

Exterior applications can be affected by weather conditions.

Check specifications for unique applications.

Reserve your sample.
