

PEACOCK™
PAVERS
HANDCRAFTED CONCRETE PAVERS

LUXURY THAT LASTS

Timeless elegance,
handcrafted for generations.

At Peacock Pavers, we believe beauty should be built to last. Our handcrafted architectural pavers capture the elegance of natural stone while offering the durability and versatility that modern construction demands. Designed to evoke the timeless appeal of travertine and limestone, our pavers enhance any space with their rich textures, intricate patterns, and artisan-crafted edges.

Our patented formula ensures that each piece is perfectly imperfect, creating a look of authentic aged stone. Whether for a cozy patio, grand interior flooring, or an expansive commercial project, Peacock Pavers provides sophistication that stands the test of time—bringing classic charm and lasting quality to every project.

For elegance that endures, there's no more timeless choice than Peacock Pavers.

Why Choose Peacock Pavers?

Why is Peacock Pavers the company of choice for so many designers, architects, and homeowners? Here's what makes us unique:

Exquisite Craftsmanship

Every Peacock Paver is meticulously handcrafted to achieve a unique, authentic look. Our artisan process ensures that each piece carries unique character, with subtle variations that mirror the beauty of natural stone.

Customizable Size and Color

No two projects are the same, and neither are our pavers. With a wide selection of sizes and custom color options, you can create a distinctive look that perfectly suits your vision, from classic elegance to contemporary charm.

Eco-Friendly Materials

We craft our pavers using architectural-grade concrete, a recyclable material, and our process is significantly more fuel-efficient than quarrying natural stone. As a sustainable choice for green building projects, Peacock Pavers is ideal for builders seeking LEED certification while maintaining exceptional quality and beauty.

Suitable for Both Residential and Commercial Projects

Designed for versatility, Peacock Pavers enhance both private homes and large-scale commercial spaces. From patios and pool decks to elegant interior flooring, our pavers offer durability, sophistication, and timeless appeal for any setting.
